

Expanding Housing Protections for All Illinoisans

HB 2775 Sen. Ram Villivalam (28 Sponsors)
Rep. La Shawn Ford (17 Sponsors)

Currently, **the State of Illinois' fair housing law does not offer protections against discrimination based on legal sources of income.** Landlords can discriminate and deny housing to people who pay for their housing with social security, veterans benefits, child support, Housing Choice Vouchers, or any other type of non-wage income. This is known as source of income discrimination in housing. **At a time when housing costs are increasing, it's urgent that we ensure no household is denied a home.**

UPDATE:

The language of HB 2775 has been amended to address concerns from stakeholders in the housing industry resulting in the removal of some of the provisions in the original bill regarding the Homelessness Act and Evictions Act, and the requirements on income calculations.

HB 2775 now focuses solely on the core source of income protections that 19 other states already have. This brings the State into alignment with existing source of income protections under Cook County and City of Chicago.

Illinois should become the 20th state to pass source of income protections during this 2022 General Assembly Session and make source of income discrimination illegal.

This would help protect:

- Over half of Illinois households that earn some sort of non-wage income ;
- 99,000 Housing Choice Voucher participants in Illinois;
- Workers needing emergency assistance to help cover rent due to COVID-19 challenges;
- Persons fleeing domestic violence, sex trafficking, or other dangerous situations;
- Veterans paying for their housing with veterans benefits or housing vouchers;
- Single mothers using child support and/or alimony payments to pay for housing; and
- Seniors and people with disabilities paying for their housing with social security.
